TROPICAL CYCLONE BULLETIN NO. 15 Typhoon BETTY (MAWAR)

Issued at 5:00 PM, 30 May 2023

Valid for broadcast until the next bulletin at 11:00 PM today.

TYPHOON BETTY DECELERATES WHILE SLOWLY MOVING NORTHWARD OVER THE SEA EAST OF BATANES

Location of Center (4:00 PM)

The center of the eye of Typhoon BETTY was estimated based on all available data at 315 km East of Basco, Batanes (20.6°N, 125.0°E)

Intensity

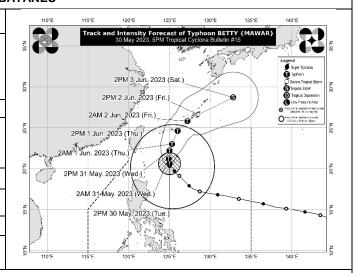

Maximum sustained winds of 150 km/h near the center, gustiness of up to 185 km/h, and central pressure of 955 hPa

Present Movement

Northward Slowly

Extent of Tropical Cyclone Winds

Strong to typhoon-force winds extend outwards up to 630 km from the center

TRACK AND INTENSITY FORECAST

	Center Position			Intensity		Movement
Date and Time	Lat. (°N)	Lon. (°E)	Location	MSW (km/h)	Cat.	dir. and speed (km/h)
12-Hour Forecast 2:00 AM 31 May 2023	21.2	124.9	320 km East of Itbayat, Batanes	150	TY	N Slowly
24-Hour Forecast 2:00 PM 31 May 2023	22.2	125.0	365 km East Northeast of Itbayat, Batanes	150	TY	N 10
36-Hour Forecast 2:00 AM 01 June 2023	23.0	125.3	435 km Northeast of Itbayat, Batanes	140	TY	NNE 10
48-Hour Forecast 2:00 PM 01 June 2023	24.6	126.0	600 km Northeast of Itbayat, Batanes	130	TY	NNE 15
2:00 AM 02 July 2023	25.8	127.2	780 km Northeast of Itbayat, Batanes (OUTSIDE PAR)	120	TY	NE 15
72-Hour Forecast 2:00 PM 02 June 2023	26.6	128.5	940 km Northeast of Extreme Northern Luzon (OUTSIDE PAR)	110	STS	NE 15
96-Hour Forecast 2:00 PM 03 June 2023	28.7	132.8	1,415 km Northeast of Extreme Northern Luzon (OUTSIDE PAR)	85	TS	ENE 20

TROPICAL CYCLONE BULLETIN NO. 15 Typhoon BETTY (MAWAR)

Issued at 5:00 PM, 30 May 2023

Valid for broadcast until the next bulletin at 11:00 PM today.

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT								
TCWS No.	Luzon	Visayas	Mindanao					
2	Batanes	-	-					
Wind threat: Gale-force winds	Warning lead time: 24 hours Range of wind speeds: 62 to 88 km/h (Beaufort 8 to 9) Potential impacts of winds: Minor to moderate threat to life and property							
Wind threat: Strong winds	The northern and eastern portions of Isabela (Santo Tomas, Santa Maria, Quezon, San Mariano, Dinapigue, Delfin Albano, San Pablo, Ilagan City, Benito Soliven, Tumauini, Cabagan, Palanan, Quirino, Divilacan, Gamu, Maconacon, Naguilian, Mallig), Apayao, the eastern portion of Ilocos Norte (Piddig, Bangui, Vintar, Marcos, Pagudpud, Banna, Adams, Carasi, Dingras, Solsona, Dumalneg, Nueva Era), the northern portion of Kalinga (City of Tabuk, Balbalan, Pinukpuk, Rizal), the northeastern portion of Abra (Tineg, Lacub, Malibcong) and Cagayan including Babuyan Islands	-	-					
Willias	Warning lead time: 36 hours Range of wind speeds: 39 to 61 km/h (Beaufort 6 to 7) Potential impacts of winds: Minimal to minor threat to life and property							

HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Forecast accumulated rainfall from today to tomorrow afternoon

• 50-100 mm: Batanes, Babuyan Islands, Ilocos Norte, Ilocos Sur, La Union, and the western portions of Abra and Benguet.

Under these conditions, **flooding and rain-induced landslides are possible**, especially in areas that are highly or very highly susceptible to these hazard as identified in hazard maps and in localities that experienced considerable amounts of rainfall for the past several days.

For more information on the areas affected by rains from the **Southwest Monsoon enhanced by BETTY**, refer to the **Weather Advisory #3 for Southwest Monsoon** issued at 11:00 AM today and the **24-Hour Public Weather Forecast** at 4:00 PM today.

Severe Winds

- Wind Signals in some areas of Luzon have been downgraded.
- Minor to moderate impacts caused by gale-force winds remain possible within the areas where Wind Signal No. 2 is hoisted. Minimal to minor impacts from strong winds (i.e., strong breeze to near gale strength) are also possible within any of the areas where Wind Signal No.1 is currently in effect.
- The enhanced Southwest Monsoon and outer periphery of the typhoon circulation will also bring occasional gusts
 in the next 24 hours over Bicol Region, Western Visayas, Aurora, Quezon, Mindoro Provinces, Marinduque,
 Romblon, Northern Samar, and the rest of Cordillera Administrative Region and Ilocos Norte that are not under any
 Wind Signal.

TROPICAL CYCLONE BULLETIN NO. 15 Typhoon BETTY (MAWAR)

Issued at 5:00 PM, 30 May 2023 Valid for broadcast until the next bulletin at 11:00 PM today.

HAZARDS AFFECTING COASTAL WATERS

Under the influence of Typhoon BETTY and the enhanced Southwest Monsoon, a **marine gale warning remains in effect** over the seaboards of Northern Luzon, eastern seaboards of Central Luzon, Southern Luzon, and Visayas. For more information, refer to **Gale Warning #7** issued at 5:00 PM today.

TRACK AND INTENSITY OUTLOOK

- Typhoon BETTY is forecast to generally move slowly northward today until tomorrow over the waters east of Batanes. Afterwards, the typhoon will gradually accelerate north northeastward on Thursday and northeastward on Friday, bringing its center over the waters southeast of the Ryukyu Islands. Typhoon BETTY may exit the Philippine Area of Responsibility on late Thursday or Friday early morning.
- This typhoon is forecast to steadily weaken over the next five days due to cooler ocean waters (caused by upwelling
 of cooler waters in its wake), dry air intrusion, and increasing vertical wind shear. BETTY may be downgraded into
 a severe tropical storm on late Thursday or early Friday and into a tropical storm on late Friday or early Saturday.
 However, given the extent of the effect of dry air intrusion on the typhoon, a faster weakening rate within the forecast
 period is not ruled out.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.

The next tropical cyclone bulletin will be issued at 11:00 PM today.
